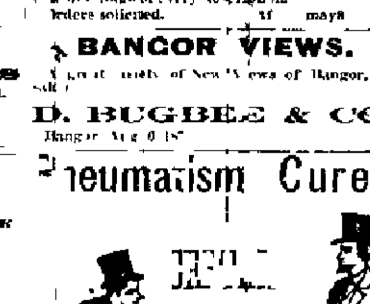
Rheumatism Cured



As A Proof Notice the Results.

Capt Stevens of the Boston Lancers says:

BOSTON, March 9 1875.

Mr. Alphonse Miller

Dear Sir—Accept my lasting gratitude for the benefit which myself and wife have experienced from the use of the wonderful medicine called the

Diamond Rheumatic Cure

For several years past I have been an acute sufferer from attacks of inflammatory Rheumatism and have been [illegible] more severe than its [illegible]. The last [illegible] from this terrible [illegible] lasted three months. The best medical talent of Cambridge was called in but no relief was experienced. I was so low on several occasions that my recovery was despaired of. When at last I rallied sufficiently to discern what was transpiring about me, I learned that my wife was also afflicted with the same fearful disease. A friend learning of our helpless condition, brought her six bottles of the DIAMOND RHEUMATIC CURE. By the taking of two doses of this invaluable remedy she was entirely relieved. I then commenced to take it, and rapidly improved until in about a week I was completely restored. Since then I have had another attack, and one dose dispelled it. I no longer fear Rheumatism or its baneful effects. About two weeks since I recommended it to a friend who was likewise suffering, and the result was a certain cure by the use of one bottle. You can mention my name either publicly or privately in the interests of mankind. I am willing to be interviewed personally by any one desiring to know the above facts from me, and I feel fully convinced that the thousand who are to day suffering the torments from the effects of Rheumatism and Gout, if they but knew how ready a relief and cure was at hand, would at once resort to this sure and simple remedy and would bless with benedictions of praise the name of the physician who gave to suffering humanity this truly effective remedy—the DIAMOND RHEUMATIC CURE.

I remain gratefully yours,

T. J. STEVENS,

20 Flint St. Cambridgeport, and 6 Cambridge St., Boston

The above testimony ought to convince the most skeptic Rheumatic that a SURE CURE has been discovered in the

Diamond Rheumatic Cure.

The proprietor of this medicine has walked the aisles of the hospitals of London and Paris for the last twenty years, making rheumatism a specialty, and the prescription from which this remedy is compounded is all he ever used in the treatment of this disease. In simple cases sometimes one or two doses suffice. In the most chronic case it is sure to give way by the use of four or five bottles. By this efficient and simple remedy hundreds of dollars are saved to those who can least afford to throw it away, as surely it is by the purchase of useless prescriptions.

Let any sufferer who reads this purchase a small bottle and take it according to the instructions around the package, and he will not take long to convince him that paying doctors' fees is money thrown away.—Testimonials of all kinds are useless.

This medicine is for sale at all Druggists throughout the United States and Canada. If it happens that your Druggist has not got it in stock, ask him to send for it to the wholesale agents.

The great and special feature of the New England Mutual Life Insurance Co. is its NON-FORFEITABLE POLICIES. This feature is the right of the Policy holders made so by the law of the State of Massachusetts. Premiums already paid continue the Policy in force until they are earned by the cost of insurance. Fifteen policies in the New England Co. were paid under this law in 1874, amounting to $37,000.00, which would have been a total loss to the policy holders, had they been insured in any company other than a Massachusetts company.

The advantages offered to insurers by this company in

THE VALUE OF INDUSTRIAL ART EDUCATION

[E. S. Drone in the American Journal and Review.]

It is a fact full of significance to the United States which has all the natural resources to lead the civilized world in manufactures, that the nation (the United States) which made the poorest exhibition of industrial products at the Universal Expositions of 1851 and 1867 made also the poorest exposition of industrial schools at home, and that the countries which give to the world the richest silks, the costliest carpets, the most valuable woolen fabrics, the best cotton prints, the most artistic productions of the pottery, the glass factory, the bronze foundry and the marble works have also built the most and the best industrial schools. It is true that certain branches of American manufactures have been brought to a high degree of excellence that has won a leading position in the markets of the world. Connecticut clocks mark the time for almost as many nations as does the sun. American rifles have done their deadly work in every civilized country. American sewing machines and pianos have carried happiness to the homes of every land, and American agricultural implements have gladdened the farmer's hearts in every harvest field under the sun. We have even acquired an enviable distinction abroad in the production of certain domestic implements, for the American rat-traps, pumps, door locks, sausage machines, coffee mills, washing machines, buckets, clothes-pegs, besides notions and gimcracks of various kinds, have so charmed dometics of foreign countries that similar articles of home manufacture have been driven from the market.

But this group of articles showing the excellence of American industry is the result not of that widespread knowledge of chemistry, of drawing, of designing and of science generally, which has raised into the working classes has produced those rare silks, laces, carpets, woolen fabrics, cotton prints, ceramic art, glassware, marbles and bronzes which come to us from the workshops of Europe, but they are the outgrowth of that wonderful inventive faculty, that "Yankee ingenuity" which is indigenous to this country. The deserts of California are pressed by American machinery beyond the reach of German ingenuity, but the peasants of Switzerland can carry their designs to Lyons that American cannot rival. A Yankee sends to the cotton fields of the South a machine for picking cotton, the value of which cannot be estimated in dollars and cents, but the English mills put the cotton into prints that are beyond our competition.

An important problem then, not alone for the manufacturers, but also the public of the United States is presented by the inquiries. Why do the merchants of Liverpool glean our cotton fields? Why does much of our wool go to Saxony, only to return in fabrics that our skill cannot equal? Why do the looms of Lyons weave better silks than those of Connecticut? What is the secret, the explanation, of this superior artistical and foreign finish? Can this country profit by the experience of Europe? England has made substantially the same inquiries, and has reached the conclusion that the superiority of continental workmanship is due not to greater natural advantages, either in materials, surroundings or workmen, but to superior systems of technical education. As Americans are much given to disposing of problems by series of resolutions, the probable procedure in a case of this kind would be the appointment of a political committee whose report would be about as follows: "Whereas the superiority of many articles of English, French and German manufacture places them beyond American competition, and whereas it is our first duty to encourage American industry,—therefore be it resolved that a duty of fifty per cent. be imposed upon all articles of foreign manufacture which may be superior to our own."

MARCELLUS EMERY BEFORE THE PECK INVESTIGATING COMMITTEE, IN 1860.

In the vain effort to break the force of the terrible revelations of official testimony concerning Mr. MADIGAN's bribery and corruption in the Congressional election of 1858 the Bangor *Commercial* copying after the Belfast *Journal*, tries to revamp Marcellus Emery's ancient falsehood about State Treasurer Peck having used State funds for election purposes in the same campaign. Mr. Emery is not a prudent man or he would not thus call for a reproduction of his own dishonorable discredit able and cowardly conduct in connection with that affair.

In 1860 at the time of Peck's defalcation Mr. Emery was editor of the Bangor *Union*. He asserted and reasserted that Peck had used the State money for political purposes and other Democratic papers re-echoed the charge. Mr. Emery led the van, however, as recklessly lying just as he does to-day, though he now has Eben F. Pillsbury of the *Sentinel* for a rival. Finally Emery made the distinct charge, which he was ready to prove and which he declared to be reliable and made on "good authority" that Peck contributed $13,000 to the First District, $8,000 to the Third and $4,000 to the Sixth—*[illegible]*.

Mr. Peck ... before the Committee under the severest cross-examination that during the three years which he was Treasurer his political contributions, State County and City, together with his pecuniary aid to the Temperance cause, amounted in all to about four hundred dollars, ($400) and he gave a bill of particulars."

Mr. Emery's assertions in contradiction of Mr. Peck were so broad and defiant, made with a tone of such confident bravado and repeated with such brazen effrontery that the Committee felt compelled to summon him as a witness. What followed may best be stated by the subjoined lengthy extract from the Report of the Committee. After reciting the preliminary facts, the Report proceeds to say:

"The Committee therefore, conceived it to be their duty to call on the editor of the *Union*, MARCELLUS EMERY, Esq., for his information and they accordingly summoned him to appear before them on the 16th of February. The substance of Mr. Emery's testimony is as follows, taken down as he delivered it:

"All the knowledge I have of the matter is from rumor. *I have no personal knowledge. My sources of information are such as I should not be willing to report. The matter about Peck's using money for political purposes* WAS MERE RUMOR. I have no definite information about it, but I have inference from facts which I have heard. No one who has ever communicated with me has pretended to have personal knowledge, or any definite information of the matter. *I did not suppose when I wrote the article, that my informant had any personal knowledge or definite information about the matter.* I understood it was report he had heard. He gave me the source of his information. I respectfully decline to give the name of my informant, or to give the name he gave to me."

"As Mr. Emery, in the face of this series of negations and unqualified confessions of ignorance touching the whole matter, still maintained that he should feel himself justified in repeating the charges contained in his article, the Committee thought it advisable to require the names which he had just declined to give; for as these gentlemen, whoever they might be, possessed sufficient knowledge to convince Mr. Emery, the Committee thought it quite probable that they would prove of material service in ferreting out this matter." Accordingly the Committee voted to require the names, and Mr. Emery not wishing to give them, and being anxious, as he said, not to commit a "contempt," he asked an hour to consult counsel as to his legal rights and obligations in the premises. The Committee at once granted him three hours and adjourned to suit his convenience. When the Committee met again, Mr. Emery appeared, and while declaring that he did not believe he could be legally compelled to answer the question addressed to him, he yet thought it expedient and prudent to do so, and would therefore give the names under protest. He then informed the Committee that D. M. Howard, of Bangor, was his immediate informant, and that Howard's authority was a letter which he had seen from Col. George W. Stanley, of Augusta. Mr. Emery informed the Committee that Howard had no more information than he had himself, but that Col. Stanley, he presumed, had. Mr. Emery further suggested that if the Committee should call on Louis O. Cowan, Frederic A. Pike and James S. Pike, some important information on the point involved would doubtless be elicited.

"Anxious to obtain all possible information, the Committee at once resolved to summon Col. Stanley before them, and that gentleman appeared, and gave the following testimony, *verbatim*:

"I have no knowledge that Mr. Peck has spent any money for political purposes since his election. *I do not know that he has furnished any money to any person for any such purpose.* In my letter to Bangor, I conveyed no other information touching acts than such as Mr. Peck had himself communicated to me, and that was simply that Somes was his debtor to a certain amount. Peck did not state that Somes had used the money for political purposes. My conversation with Peck was in the fall at Bangor. *I have no knowledge of money being contributed by Peck, directly or indirectly, in the Congressional elections of the first, second or third district in 1858.* I have heard, can't remember from whom, that Peck had sent $1,000 to Mr. Pike for sixth district, but have no personal knowledge of the matter."

Col. Stanley seemed to be no little surprised that he should have been quoted as authority for the article in the *Union*. He stated that his business led him to write quite frequently to Bangor, but that in no letter had he made any more specific charge touching the point in question, than he had just recited to the Committee.

"The Committee summoned Louis O. Cowan and F. A. Pike to appear before them and addressed the proper questions to Jas. S. Pike, by letter with the view of eliciting information from them, on the points concerning which Mr. Emery was sure they would be fully advised.

"Mr. Cowan stated that he did not know of any money being contributed by either Peck or Somes in the Congressional canvass of 1858—that Somes never gave, loaned or sent him a dollar." "That the only money he received during the whole canvass was $85 from the County Committee in payment for printing and other expenses, actually incurred, and the bill of which he exhibited. Somes corroborated this statement, so far as he could allege that Cowan did not receive a dollar from him.

"Frederic A. Pike appeared before the Committee and testified that he did not know of any money being contributed by B. D. Peck in the Congressional election of 1858 or any other year. Mr. Pike's emphatic language concluded thus:

"I want ... [illegible] ... every possible point. I never knew or heard of contributions from Peck personal or political, direct or indirect, in 1858 or any other year."

"James S. Pike being absent from the State, the Committee did not deem it necessary to summon him, but instructed one of their number to address him in regard to the point in question, and to solicit from him an early response. In answer to the letter thus addressed, Mr. Pike wrote as follows:

WASHINGTON, D. C., Feb. 23, 1860.
JAMES G. BLAINE, Esq., Augusta, Me.:
DEAR SIR—I have to-day received your favor of the 18th inst., propounding the following inquiry: "Have you any knowledge of money being contributed by B. D. Peck in 1858 to aid the Republican candidate for Congress in the Sixth District or any other District of this State?"
In answer I beg to state that I know of no contribution for election purposes made by Mr. Peck at any time or in any place, and I have no ground of belief that he ever contributed anything to the Sixth District in 1858, or at any other time. In regard to the other Districts I have no knowledge whatever.

Very respectfully, your obedient servant,
JAMES S. PIKE.

The Committee have thus been unable to find that a single dollar has been used by Mr. Peck directly or indirectly for election purposes beyond the sum acknowledged by himself. Every witness presumed from position and precedent to be able to throw light on this subject, has been summoned, and the result of the investigation is just what has been stated. *There is an entire absence of positive evidence to sustain the charge; a diligent ... [illegible] ... to disprove it, and the most complete ... [illegible] ... of both parties, who were allegedto have personal knowledge on the subject. The Committee have endeavored to probe this matter to the bottom, and their impartial conclusions are thus fearlessly and fully stated."*

Witnesses were summoned from all quarters of the State and every one of them, Republican and Democrat, testified to having no knowledge whatever of money having been used by Peck for political purposes. And the witnesses giving this negative testimony were numerous, while there was not a single witness giving the slightest testimony establishing the truth of the charge.

The report on the subject, as we have quoted it, was written by Mr. Blaine, a Representative from Augusta and chairman of the Committee. But the Report was signed by the entire Committee, including the Democratic members Col. Joseph Porter of Lovell and George Comstock of Lubec. Hon. George K. Jewett, of this city was also a member of the Committee and so was Hon. J. H. Drummond of Portland.

Anyone who will take the trouble to examine Mr. Emery's testimony will see that he confesses to having made the gravest charges on "mere rumor," for which, when called to account, he can give no authority whatever, but which he did not hesitate to declare in his paper were "reliable" and made on "good authority!" Mr. Emery was thus compelled to write himself down in the Bangor *Union* as the same reckless slanderer and falsifier that he continues to be in the *Commercial*.

A member of the Investigating Committee (and for the soothing benefit of Mr. Emery's nerves we will state it was not Mr. Blaine) says that "Emery's appearance before the Committee was a most humiliating spectacle. He seemed like a thief caught in the act; he grew alternately red with mortification and livid with concealed rage, and altogether was an object of pity and contempt to every member of the Committee. Mr. Blaine pressed the questions home upon him until he stood before us a self-convicted, trembling, craven liar."

Probably our readers may find in the following some palpable reasons for that *rabies* of "Blaineism" wherewith Marcellus Emery is so sorely afflicted, and wherewith he so sorely afflicts and disgusts his readers. "Is your dog mad?" said Smith to Brown. "No! what makes you think so?" replied Brown. "Why, I be darned if I wouldn't be mad," rejoined Smith, "if anybody should kick me as I kicked that dog."

The *Commercial* man remarks upon the length of the heels of our boots. He has evidently been measuring them from impressions and ought to know.

The conductor of the Bangor *Democrat and Commercial*, in failing to even attempt to meet a single count of our terrible but truthful indictment of his professional course as a PANDER to all that is vile and vicious in his kind, while jesting over the arraignment as something not to be ashamed of, has practically pleaded guilty and admits the impossibility of defence. If the public can find any "mitigating circumstances" in the case they must look deeper and farther than we have been able to go.

THE CATHOLIC QUESTION.

[From the Kennebec Journal.]

The Boston *Herald*, which cannot be accused of any leaning toward the Republican party, has the following remarks about the Catholic question in Ohio:

"Protestant Democrats are attending Republican meetings in unusually large numbers, and there are indications of much quiet scratching of the Democratic ticket on election day. Ever since the Roman Catholic church took a pronounced position against non-sectarian education, it has been growing more and more hostile to the public schools. There is a very ultra Roman Catholic newspaper in Cincinnati, the Catholic Telegraph, which assails the public school system violently and constantly. The priests are also adopting coercive measures to compel the withdrawal of children from the public schools; and there is a very marked change of sentiment on the question among the Catholics everywhere. Very naturally the Protestant and liberal thinking portion of the public is alarmed. There is an intense anti-Catholic feeling both in the Western reserve, which was settled from New England, and in Southern Ohio, which was mainly settled by immigrants from Maryland, Virginia and North Carolina who detest the caste system which they remember in those States. These facts explain the popular feeling."

It is worthy of note that Mr. Madigan, the Democratic candidate for Congress in the 4th District, is a Representative man of the ROMAN CATHOLIC CHURCH "Protestant Democrats" in Maine are disturbed about it as much as their brethren in Ohio.

"We have yet to learn that over brain work effects the legs *alone*, leaving the whole upper structure of the man sound. Morton got his wounds in no intellectual or field campaign."—*Commercial*.

This is one of the many dirty innuendoes that the *Commercial* is constantly flinging at Senator Morton. The editor of that paper should bear in mind that *Senator Morton, at least* was never accused, nor does his countenance or physique bear evidence, of having inflicted any wounds upon himself.

We will suggest to the Presque Isle *North Star* that while we concede its right to favor either party or no party as it may choose, we emphatically object to its using Republican livery to serve the Democratic "Auld Clootie" in. Our neighbor is too young in politics to succeed in playing tricks upon its elders, and the Republican varnish of its last issue is decidedly thin. A paper which while claiming to be Republican, and to support General Plaisted, publishes and indorses a call for a bolting convention, signed by its editor, and put forward before the party has presented its candidates for approval, may deceive some of the Madawaska settlers, but not those who judge of the tree by its fruit. And when the same issue expresses sympathy for Jeff. Davis, adopts in leaded type the unauthorized and untruthful statements of the Bangor *Commercial* in defence of a Democratic candidate, flings at all the prominent Republicans of Aroostook who are earnestly supporting the party, and, not satisfied with a senatorial bolt, declares that it is not important that the Republicans carry its legislative Representative district, we think we know where to place it politically. We do not object to your supporting Madigan, "Mr. Star," but to be honest in it you should put his name at the head of your columns. If the sincere Liberals of Aroostook, who have everything that they could desire in the Republican candidates, permit you to lead them astray, we shall be much mistaken.

NEW YORK, Aug. 30. A private telegram from Boston gives the liabilities of the senior firm at $1,000,000 but Miller and other prominent publishers who are well informed in regard to the business of the house, say the sum involved will not exceed $450,000, and that they will probably be able to pay 50 cents on the dollar. SUPREME JUDICIAL COURT.

AUGUST (CRIMINAL) TERM.

HON. JOHN A. PETERS, Justice Presiding.
JASPER HUTCHINGS, ESQ., County Att'y.
RUEL SMITH, ESQ., Stenographer.

In the search and seizure case, State vs. Williams, the jury returned a verdict of guilty.

The last case of the term was State vs. Peter Davis, search and seizure. The jury brought in a verdict of guilty.

The juries were discharged about 4 30.

The court adjourned till this morning at 10 o'clock when the Judge will sentence the convicted persons. The recent term of the court has been an unusually busy one, and a great many cases have been disposed of.

There has been only one verdict of not guilty and two disagreements—one in a search and seizure case the other in a case for assault and battery. There has been six cases tried for breaking and entering, and larceny, six cases for larceny, two cases for malicious mischief; three cases for assault and battery; one case for manslaughter; and six liquor cases. A large number of liquor cases were begun, and after the testimony was in for the Government, the defendants withdrew their pleas, and in one case pleaded *nolo contendere*, the other of those cases demurred. Seventy five liquor cases were disposed of in part by default, in part by demurrer. Three liquor cases were disposed of, being quashed for defects in the papers from the Police Court. In addition to these there were a large number of appealed cases of various kinds disposed of, principally by default. A number of liquor indictments will lie over till next term on account of the disappearance of the defendants who were probably rusticating.

The following resolutions were unanimously passed by the First Jury on their discharge:

Resolved, That the unsurpassed, clear and distinct manner in which Judge Peters has rendered his charges, and especially in regard to prosecutions under the Liquor Laws, has made it comparatively easy to decide on a verdict.

Resolved, That the gentlemanly courtesy and urbanity of County Attorney Hutchings and other members of the Bar, who have addressed us, is a feature in the dull monotony of the Court room we shall remember with pleasure.

Resolved, That our thanks are due to Deacon E. F. Duren for kindly furnishing us with Boston daily papers.

Resolved, That our association has been a pleasant one, and we hope friendships here formed will be renewed under more favorable circumstances.

CONSUMPTION.
MANSION HOUSE HOTEL.
BALTIMORE, Md., October 20, 1871.
MR. JAMES I. FELLOWS.

Dear Sir. I have just finished the tenth and last bottle of your estimable Syrup of the Hypophosphites. To its use I ascribe cessation of cough, sharp pains in my back and chest, and of copious expectoration; also, return of appetite, buoyancy of spirits, increase of flesh and strength to perform my daily duties with a degree of pleasure unknown to me for a long time. The good I have experienced from it is beyond description, and I advise all persons afflicted with consumption not to delay a day in taking it. Feeling sure that were it not for your Hypophosphites, I would now be in my grave. Yours truly,

Many who are suffering from the effects of the warm weather and are debilitated, are advised by physicians to take moderate amounts of whisky two or three times during the day. In a little while those who adopt this advice frequently increase the number of "drinks," and in time become confirmed inebriates. A beverage which will not create thirst for intoxicating liquors and which is intended especially for the benefit of debilitated persons, whether at home or abroad, is Dr. Schenck's Sea Weed Tonic. Containing the juices of many medicinal herbs, this preparation does not create an appetite for the intoxicating cup. The nourishing and the life-supporting properties of many valuable natural productions contained in it and well known to medical men, have a most strengthening influence. A single bottle of the Tonic will demonstrate its valuable qualities. For debility arising from sickness, over exertion or from any cause whatever, a wineglassful of Sea Weed Tonic taken after meals will strengthen the stomach and create an appetite for wholesome food. To all who are about leaving their homes, we desire to say that the excellent effects of Dr. Schenck's seasonable remedies, Sea Weed Tonic and Mandrake Pills, are particularly evident when taken by those who are injuriously affected by a change of water and diet. No person should leave home without taking a supply of these safeguards along. For sale by all Druggists. cod1m aug2

SANFORD'S JAMAICA GINGER

This elegant preparation is prepared from the TRUE Jamaica Ginger, combined with choice aromatics and genuine French brandy, and is vastly superior to every other Extract or Essence of Ginger before the public—all of which are prepared with alcohol by the old process.

CHOLERA MORBUS,

Cramps, Pains, Diarrhea and Dysentery, are instantly relieved by it. It will render an attack of Cholera Morbus impossible, if taken when the symptoms of this dangerous complaint first manifest themselves.

CRAMPS AND PAINS

Whether produced by indigestion, improper food, change of water or diet, too free indulgence in ice water, exposure to sudden changes of temperature, are immediately relieved by it. One ounce added to a gallon of

ICE WATER

And sweetened, forms a mixture which, as a cooling healthy and refreshing Summer Beverage has no equal. Barrels of ice water, prepared in this way, may be drank without the slightest injury, and happy is the man who finds in this a substitute for spirituous liquors. Its value to the Farmer, Mechanic and Laborer cannot be over-estimated. It is so cheap as to be within the reach of all, so finely flavored as to be enjoyed by lovers of the choicest liquors.

DYSPEPSIA

Flatulency, Sluggish Digestion, want of Tone and Activity in the Stomach and Bowels, Oppression after Eating are sure to be relieved by a single dose taken after each meal. A great want exists for a

RESTORATIVE STIMULANT

Free from serious objections, yet palatable, even inviting to the sensitive palate, which will create no morbid appetite for itself, and operate as an assistant to digestion, as well as perform the functions of a stimulant. Such we confidently believe is to be found in

SANFORD'S JAMAICA GINGER

An elegant combination of the True Jamaica Ginger with the choicest Aromatics. It is beyond all comparison the most healthy, invigorating tonic and stimulant before the public. AYER'S CHERRY PECTORAL

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and CONSUMPTION.

The few compositions which have won the confidence of mankind and become household words, among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, by a long continued series of marvellous cures, that have won for it a confidence in its virtues never equalled by any other medicine. It still makes the most effectual cures of Coughs, Colds, Consumption, that can be made by medical skill. Indeed the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors to a great extent, and given a feeling of immunity from their fatal effects that is well founded, if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks.

Ayer's Sarsaparilla

FOR PURIFYING THE BLOOD

This compound of the vegetable alteratives, Sarsaparilla, Dock, Stillingia, and Mandrake with the Iodides of Potassium and Iron, makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system, that undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side and Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation and General Debility.* With their departure health returns.

THE MAIDEN SLEEPS.

TRANSLATED FROM THE GERMAN

The maiden sleeps—why mourn ye in this wise,
Ye parents? Let her rest.
The little face that 'mid the flowers lies
Speaks to your aching breast—
My lot is light, oh, wherefore, weep?
I lay me down in peace and sleep.
The maiden sleeps.

The maiden sleeps—wearied from play to rest,
Tired out with happiness
The doll the little arms had fondly pressed
The pretty Sunday dress,
Her story book remembered not—
All, all her treasures now forgot.
The maiden sleeps

The maiden sleeps—her life was peaceful made
And light her early lot.
A little stream that through the flowers strayed
With love and music fraught—
No bitter grief the child's heart pained
Soon was the short fight fought an I gained
The maiden sleeps

The maiden sleeps—how blest she slumbered in
Her tender Saviour's arm
That spoils no heart, unsoiled unstained by sin
No earthly fear could harm
An innocence pure a sinless breast
This is a couch the head to rest.
The maiden sleeps

The maiden sleeps—earth's pain earth's trouble no more
[illegible] break that sweet repose
[illegible] mother, thou what might have been in store
For her of bitter woes?
She feels no more the tempest's beat
Feels not the summer's sultry heat—
The maiden sleeps

The maiden sleeps—only one short calm night
That peaceful sleep will last
And oh how bright the morn that greets her sight
When that brief night is o'er!
He, who by Boar-nestlers will
Soothed Jairus, lives and comfort still—
The maiden sleeps

The maiden sleeps—and now the last kiss press
Upon the lips so still
The Father help thee in thy sore distress
Thou mother 'tis his will
As as they bear her to her rest
[illegible] the being she loved the best—
The maiden sleeps

The maiden sleeps—now Shepherd take her home
Thine for eternity
Ye glorious stars, bend down from heaven's dome
Watch o'er her tender!
O wind blow not so loud and shrill
O'er this little flower decked hill—
The maiden sleeps.

THE MANUFACTURE OF GLASS IN FRANCE

[Paris Correspondence of the Pall Mall Gazette]

I [illegible] in connection with the glass exhibited in Japan and said to be over one [illegible] and years old, an article by M [illegible] [illegible] in the *Economiste Francais* may be read with interest. That gentleman says that France long remained indebted to Italy in the matter of making glass although in the sixth century drinking glasses were manufactured at Paris and [illegible] [illegible]. But in 1142 we find a Dauphin paying for a little glass service for his daughter Diana the price of an ox. Some of the most curious windows in the Gothic [illegible] date from the thirteenth, twelfth and seventeenth centuries but it was only under Louis XIV that France appropriated the [illegible] of those exquisite productions which [illegible] sold her for their weight in [illegible]. There are now in France 176 glass [illegible], without counting seven manufactories of looking glasses. Every year [illegible] 135 000 000 bottles are made [illegible] 1 000 000 of these filled with good wine and then wandered together with about 20 000 000 empty bottles. Forty years ago 100 bottles [illegible] about 80 francs now [illegible]. According to M [illegible] the invention of glass windows [illegible] with painting and steam is a sign of civilization and refinement for it rendered indoor life possible. There are proofs he says that glass existed in the early days of Christianity but it was an exceptional luxury which did not survive the fall of the Roman Empire. The window [illegible] reappeared at a later period in the churches under the form of small lozenges of equivocal transparency. At the castle of the Duke of Northumberland in 1567 [illegible] the [illegible] there were a few glass windows which used to be put in when his Grace was at home and not a century ago there existed in France a corporation of [illegible] whose profession was to put in windows of oiled paper. It was only in 1740 that glass panes in wooden frames were used.

VEGETINE

Purifies the Blood, Renovates and Invigorates the whole System

Its Medical Properties are

ALTERATIVE, TONIC, SOLVENT AND DIURETIC.

VEGETINE is made exclusively from the juices of carefully selected barks, roots and herbs, and so strongly concentrated that it will effectually eradicate from the system every taint of Scrofula, Scrofulous Humor, Tumors, Cancer, Cancerous Humor, Erysipelas, Salt Rheum, Syphilitic Diseases, Canker, Faintness at the Stomach, and all diseases that arise from impure blood. Sciatica, Inflammatory and Chronic Rheumatism, Neuralgia, Gout and Spinal Complaints can only be effectually cured through the blood.

For Ulcers and Eruptive Diseases of the Skin, Pustules, Pimples, Blotches, Boils, Tetter, Scald head and Ringworm, VEGETINE has never failed to effect a permanent cure.

For pains in the Back, Kidney Complaints, Dropsy, Female Weakness, Leucorrhœa, arising from internal ulceration, and uterine diseases and General Debility, VEGETINE acts directly upon the causes of these complaints. It invigorates and strengthens the whole system, acts upon the secretive organs, allays inflammation, cures ulceration, and regulates the bowels.

For Catarrh, Dyspepsia, Habitual Costiveness, Palpitation of the Heart, Headache, Piles, Nervousness and General Prostration of the Nervous System, no medicine has ever given such perfect satisfaction as the VEGETINE. It purifies the blood, cleanses all of the organs, and possesses a controlling power over the nervous system.

The remarkable cures effected by VEGETINE have induced many physicians and apothecaries whom we know to prescribe and use it in their own families.

In fact, VEGETINE is the best remedy yet discovered for the above diseases, and is the only reliable BLOOD PURIFIER yet placed before the public.

PREPARED BY

H. R. STEVENS, Boston, Mass.

What is Vegetine? It is a compound extracted from barks, roots and herbs. It is Nature's Remedy. It is perfectly harmless from any bad effect upon the system. It is nourishing and strengthening. It acts directly upon the blood. It quiets the nervous system. It gives you good sweet sleep at night. It is a great panacea for our aged fathers and mothers, for it gives them strength, quiets their nerves, and gives them Nature's sweet sleep—as has been proved by many an aged person. It is the great Blood Purifier. It is a soothing remedy for our children. It has relieved and cured thousands. It is very pleasant to take; every child likes it. It relieves and cures all diseases originating from impure blood. Try the Vegetine. Give it a fair trial for your complaints; then you will say to your friend, neighbor and acquaintance "Try it, it has cured me."

VEGETINE for the complaints for which it is recommended is having a larger sale throughout the United States than any other one medicine. Why? Vegetine will cure these complaints.

CANNOT BE EXCELLED

CHARLESTOWN, March 19, 1869

H. R. STEVENS:

Dear Sir—This is to certify that I have used your "Blood Preparation" in my family for several years and think that, for Scrofula or Cankerous Humors or Rheumatic Affections it cannot be excelled; and as a blood purifier and spring medicine it is the best thing I have ever used, and I have used almost everything. I can cheerfully recommend it to any one in need of such a medicine.

Yours respectfully,
MRS. A. A. DINSMORE,
19 Russell Street.
